

The Book of Resplendent Damnation™

Kings Once Stripped and Scorned...

In the Age last known to those imprisoned in Jade, the rule of the Solars was absolute, as was their arrogance. They hungered for power now lost to tattered scrolls, and in their vanity were felled by a Rebellion not matched since the Gods rose up against the Primordials. The retainers of a fallen Age were imprisoned, their might locked away with them.

...Seek Only to Be Kings Again.

Even as factions crest and sink in Creation, the Yozis plot to unite all sides in darkness. Solars spill Creation's blood again, but only their brothers, serving the Masters they once fell, know what each drop slowly awakens. The Infernal Exalted, again clothed in decadent robes, but with voices not their own, may again torment Creation, but only until the Queen again sits upon a throne. She will soon be blessed as an Avatar to Something not even the Yozis can comprehend.
