

BREE'S LOOMED HAT

Loom with even amount of pegs (can be done on odd, you will have two stitches the same in a row, remember to wrap them the opposite of previous row)

Choice of yarn colors MC (main color) and CC (contrasting color) (two colors used in hat)

Techniques:

E-wrap

Purl stitch

Hat Cuff:

First row: Begin by e-wrapping all the pegs on your loom.

Row 2: With out side pegs facing you purl the first peg, e-wrap the next peg, continue these two stitches around the loom till you get back to the first purlled peg

Row 3: E-wrap the purl stitches, purl the e-wrapped stitches

Continue with row 3 till piece is as long as you want the cuff to be, bring up bottom row for cuff, work off bottom row on pegs.

Body of hat:

1. With MC e-wrap next peg, skip next peg around the loom. Attach CC color in first skipped peg and e-wrapped each skipped peg with the CC.
2. Continue e-wrapping same pegs with MC as in row 1. Then e-wrap same pegs with CC same as row 1.
- 3: Continue e-wrapping for as long as you want the hat to be, putting the MC on MC pegs of row before, and CC on CC pegs of row before.

4: Gather the top and finish off by hiding all ends.

Have fun. This pattern takes a bit long due to the fact that this is wrapping one peg at a time, but makes a wonderful cuffed pattern.

Mary Jeanne Pettit

Close up of the brim

Close up of the vertical rows.

Inside of the hat so you can see how the long strands lay. They form a padding that makes the hat warmer.
