

Liberty Siding and Construction, Inc.

Liberty Siding and Construction, Inc. has been a part of the business community here in Buffalo County since 1984. When Dave Becker established the company, he made it his goal to provide all of his customers with superior products that were backed by strong warranties and top quality installation. By sticking to this goal, Liberty Siding established a very favorable reputation in the area.

These past 17 years have been a time of steady growth for Liberty Siding. In 1996 Dave's brother Joe joined him in the business and Liberty Siding and Construction, Incorporated was formed. Joe's addition has allowed us to reach even higher levels of quality performance and customer satisfaction.

When Dave and Joe grew up, here in Mondovi, almost

everything was done on a person's handshake, and we can almost say the same today. As a matter of fact, no matter what the size or scope of your project, you can be sure you will be treated like a friend when you call us. We are still servicing our

customers today the way we serviced our very first customer, Jelmer Anderson of Gilmanton.

We believe that product style, color, and warranty protection must play important roles in any home improvement decision. To this end, we have added many product lines over the years, and we continue to research new markets to find the highest quality products available. In addition to product selection, the long term performance record of the company standing behind your investment must be taken into consideration. With thousands of satisfied customers to date, you can be assured of professional, high quality workmanship when you select Liberty Siding and Construction, Inc.

We never call a job complete until the customer is completely satisfied.
