

CSCI 3500 ASSIGNMENT 3 FALL 2009

DUE NOVEMBER 24 AT 12 PM

Create an XHTML document with forms and a PHP document to process it.

Include CSS for:

1. At least one font property.
2. At least one text property.
3. At least one margin property.
4. At least one border property.
5. At least one padding property.
6. At least one color property.
7. At least one background property.

Your XHTML and CSS should validate at <http://validator.w3.org/> and <http://jigsaw.w3.org/css-validator/>.
