

2012 CO-REC BROOMBALL LEAGUE SIGN-UP

SIGN-UP A TEAM BY DECEMBER 15, 2011

Broomball is very similar to Ice Hockey. Players wear special padded sponge rubber shoes, use a ball which is sized somewhere between a soccer ball and slow pitch softball, and use specially designed manufactured brooms which are made of wood or aluminum. The goal like hockey is to put the ball in the opposing net, a net that is larger than a hockey net but much smaller than an outdoor soccer goal.

The La Crosse Broomball League is operated by the league players, NOT the City of La Crosse or Village of Holmen, but is assisted by both departments due to the unique winter recreational opportunity it provides to area residents.
