(a) Bring an extra insulation layer if you plan to be on Mt. Whitney at sunrise. If not forget this bad boy.

(b) Soft shell pants replace hard shell pants because of the versatility of the former.

(c) If you plan on being on the summit at dawn a dry pair of gloves is a must. If this isn't in your plans leave these at home.

(1) You may consider bring an additional 4 oz. canister if your plan is to do this trip solo.

**Notes: Be prepared to do some wash especially socks and undies.**

**Our preference is to trips starting in Horseshoe Meadow in 3 days and from Onion Valley in 4. The normal time is 6 and 7 days respectively.**
