

# Tony Stillman

Candidate for AMA District V  
Vice-President

## A New Beginning for District V

I want to be your District 5 Vice-President because I'm firmly convinced that I can improve AMA operations, AMA to member relationships, and increase services to the District V membership.

I am fully qualified, and an active modeler. I started modeling at the age of eight, moving through control line and into R/C by fourteen. I still fly many different types of models from free-flight to Giant Scale R/C. Modeling is in my blood. I love and respect all aspects of aeromodeling.

I joined AMA in 1971, became a Contest Director (CD) in 1974 and have CD'd many local fun fly's and rule book events including four R/C Aerobatics Nats, two USA Team Selections and two World Championships. I served as the F3A Aerobatics Team Manager four times. I served as the District V frequency coordinator for several years and am currently serving on the AMA Frequency Committee. In addition, I am a columnist for RC Report Magazine.

On July 16, 2003, I was inducted into the AMA Hall of Fame for dedicating time and effort in support of AMA and its goals and for my lifelong achievements in modeling.

On a local level, I have served in every office of my local club. I know how to communicate with diverse groups of modelers.

The main function of the AMA VP is to represent you, the district members, at national meetings where AMA policy is made. I will solicit council from District V members in order to make informed decisions about your concerns. Much of this communication is done through the Associate VP's that I appoint. I will actively enlist interested, energetic modelers to serve as AVP's who share my vision. My objective is for myself, or one my AVP's, to visit your club at least once a year to listen to you and talk about AMA!

Each AMA District has access to funds to use within the district. These funds are used at the VP's discretion but should be carefully allocated so that the interests of all members are fairly represented. I will be accountable to you as to how this money is spent each year.

District V deserves the best representation available. Together we can make major contributions to AMA operations by keeping your concerns in the forefront of AMA policy decisions. However, I cannot speak for you without your vote. I want you to be proud that you are an AMA member and that you are from District V! Please take time to vote and make sure your flying buddies vote as well!

Thank you for your support! We can make AMA better!
