

Ren Mai – Conception Vessel Channel

Important Points:

Master Point	LU 7
Couple Point	KD 6

Description:

It arises from between the kidney's in men to the uterus in women. One branch heads up behind the spine, while another branch emerges at Ren 1 between the anus and scrotum/posterior labial commissure and passes up the mid-line of the abdomen, chest, throat, and lower jaw. A branch passes around the interior of the mouth, and terminates in the eye at ST1.

Point Locations

AcuPoint	Point Location
CV 1	Between the anus and the root of the scrotum in males, and between the anus and the posterior labial commissure in females.
CV 2	On the midpoint of the upper border of the symphysis pubis.
CV 3	On the midline of the abdomen, 4 cun below the umbilicus
CV 4	on the midline of the abdomen, 3 cun below the umbilicus
CV 5	On the midline of the abdomen, 2 cun below the umbilicus.
CV 6	on the midline of the abdomen, 1.5 cun below the umbilicus
CV 7	On the midline of the abdomen, 1 cun below the umbilicus.
CV 8	in the center of the umbilicus
CV 9	on the midline of the abdomen, 1 cun above the umbilicus
CV 10	On the midline of the abdomen, 2 cun above the umbilicus.
CV 11	On the midline of the abdomen, 3 cun above the umbilicus.
CV 12	On the midline of the abdomen, 4 cun above the umbilicus
CV 13	On the midline of the abdomen, 5 cun above the umbilicus.
CV 14	on the midline of the abdomen, 6 cun above the umbilicus
CV 15	Below the xiphoid process, 7 cun above the umbilicus; locate the point in the supine position with the arms uplifted.
CV 16	On the midline of the sternum, at the level of the 5th intercostal space.
CV 17	on the anterior midline, at level with the 4th intercostal space
CV 18	On the anterior midline, at the level of the 3rd intercostal space.
CV 19	On the anterior midline, at the level of the 2nd intercostal space.
CV 20	On the anterior midline, at the midpoint of the sternal angle, at the level of the 1st intercostal space.
CV 21	On the anterior midline, in the center of the sternal manubrium, 1 cun below CV 22.
CV 22	in the center of the suprasternal fossa
CV 23	Above the Adam's apple, in the depression of the upper border of the hyoid bone.
CV 24	In the depression in the center of the mentolabial groove.
